

# Schedules of the Convention on Psychotropic Substances of 1971, as at 3 November 2020

## List of substances in Schedule I

| International non-proprietary<br>name (INN) | Other non-proprietary or<br>trivial names | Chemical name                                                                        |
|---------------------------------------------|-------------------------------------------|--------------------------------------------------------------------------------------|
| Bromamfetamine                              | 25B-NBOMe,<br>2C-B-NBOMe                  | 2-(4-Bromo-2,5-dimethoxyphenyl)-N-[(2-methoxyphenyl)methyl]ethanamine                |
|                                             | DOB                                       | (±)-4-Bromo-2,5-dimethoxy-α-methylphenethylamine                                     |
|                                             | 25C-NBOMe,<br>2C-C-NBOMe                  | 2-(4-Chloro-2,5-dimethoxyphenyl)-N-[(2-methoxyphenyl)methyl]ethanamine               |
| Cathinone                                   | DET                                       | (-)-(S)-2-Aminopropiophenone                                                         |
|                                             | DMA                                       | 3-[2-(Diethylamino)ethyl]indole                                                      |
|                                             | DMHP                                      | (±)-2,5-Dimethoxy-α-methylphenethylamine                                             |
|                                             | DMT                                       | 3-(1,2-Dimethylheptyl)-7,8,9,10-tetrahydro-6,6,9-trimethyl-6H-dibenzo[b,d]pyran-1-ol |
|                                             | DOC                                       | 3-[2-(Dimethylamino)ethyl]indole                                                     |
|                                             | DOET                                      | 1-(4-Chloro-2,5-dimethoxyphenyl)propan-2-amine                                       |
| Eticyclidine                                | PCE                                       | (±)-4-Ethyl-2,5-dimethoxy-α-methylphenethylamine                                     |
|                                             |                                           | N-Ethyl-1-phenylcyclohexylamine                                                      |
| Eryptamine                                  | N-Hydroxy MDA                             | 3-(2-Aminobutyl)indole                                                               |
|                                             | 25I-NBOMe,<br>2C-I-NBOMe                  | (±)-N-[α-Methyl-3,4-(methylenedioxy)phenethyl]hydroxylamine                          |
| (+)Lysergide                                | LSD, LSD-25                               | 2-(4-Iodo-2,5-dimethoxyphenyl)-N-[(2-methoxyphenyl)methyl]ethanamine                 |
|                                             | MDE, N-Ethyl MDA                          | 9,10-Didehydro-N,N-diethyl-6-methylergoline-8β-carboxamide                           |
|                                             | MDMA                                      | (±)-N-Ethyl-α-methyl-3,4-(methylenedioxy)phenethylamine                              |
|                                             | Mescaline                                 | (±)-N,α-Dimethyl-3,4-(methylenedioxy)phenethylamine                                  |
|                                             | Methcathinone                             | 3,4,5-Trimethoxyphenethylamine                                                       |
|                                             | 4-Methylaminorex                          | 2-(Methylamino)-1-phenylpropan-1-one                                                 |
|                                             | MMDA                                      | (±)-cis-2-Amino-4-methyl-5-phenyl-2-oxazoline                                        |
|                                             |                                           | 5-Methoxy-α-methyl-3,4-(methylenedioxy)phenylethylamine                              |
|                                             |                                           |                                                                                      |

The salts of the substances listed in this Schedule whenever the existence of such salts is possible.

The stereoisomers, unless specifically excepted, of substances in this Schedule, whenever the existence of such stereoisomers is possible within the specific chemical designation.

List of substances in Schedule II

| International non-proprietary name (INN) | Other non-proprietary or trivial names                                | Chemical name                                                                                                                             |
|------------------------------------------|-----------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Amphetamine                              | $\alpha$ -Pyrrolidinovalerophenone, $\alpha$ -PVP                     | 1-Phenyl-2-(pyrrolidin-1-yl)pentan-1-one                                                                                                  |
|                                          | AB-CHMINACA                                                           | <i>N</i> -[[(2 <i>S</i> )-1-Amino-3-methyl-1-oxobutan-2-yl]-1-(cyclohexylmethyl)]-1 <i>H</i> -indazole-3-carboxamide                      |
